<sup>1</sup> Estimates based on total provincial allocation for regulated child care and total number of children 0-12 years.

<sup>2</sup> For the purpose of comparison with other jurisdictions where kindergarten is in the public education system, this calculation did not include PEI's spending on kindergarten because PEI's kindergartens are in child care centres.

<sup>3</sup> This figure includes expenditure on school-age care from the Ministry of Education.

<sup>4</sup> Information for the number of children 0-12 not available for the territories. Therefore, allocation for each child in the territories cannot be calculated.

<sup>5</sup> This includes allocations for the fee subsidy program which includes both regulated and unregulated child care.
