1 Note that in 2005/2006 many provinces/territories did not include federal ECEC transfer in their provincial allocation. Nor was it possible to systematically identify how and when those funds were spent. Consequently, this table represents the identified allocations.

2 This is an estimated expenditure provided by provincial officials.

3 PEI's kindergartens may be operated by child care centres. For the purpose of comparison with other jurisdictions where kindergarten is in the public education system, this calculation does not include PEI's spending on kindergarten (see PEI section for details). The allocation for kindergarten is \$3.2 million.

4 The fee subsidy budget includes spending on both regulated and unregulated child care. Breakdown between one-time start-up and ongoing operating grants is not available.
